After filling out the basic character information, the user can move on to **setting up their basic tasks.** These are tasks that the player can start off with. They can choose to either add from a pre-made list of common tasks or create ones of their own.

Once they have either finished **signing up** or **logging in**, the user will be brought to the main home page of the application. Here, the user can see a basic overview of their character stats and buttons that will take them to different pages.
